Winner- for Sales and Service Excellence!*

Living life to the fullest is what Alyce Walker is all about. From swimming in the Aegean Sea, to getting stranded on the Alps, to climbing to the top of Peru's Machu Picchu Alyce is always up for the challenge. Even her career path has mirrored this sense of adventure. You might remember seeing her as Princess Alyce in her own television show, "Castle in the Clouds."

But having fun isn't all there is to Alyce. She's a serious woman of steel with a heart of gold. Originally from Valdese, NC where her high school classmates voted her "Most Likely to Succeed," she later graduated from Meredith College in Raleigh, taught school, edited a magazine, acted in summer theatre, sang for Charlotte Opera, volunteered, led many organizations and was subsequently recognized for these accomplishments. One she treasures most was an award she received at the fourth annual Global Women's Forum held in Athens, Greece in 1999.

Alyce went on to become one of Charlotte's most prominent female Realtors, and started three top producing real estate companies, each of which were successfully acquired by other firms. She is particularly proud of the many rookie agents she mentored who have gone on to serve in a myriad of top positions in the industry.

Alyce is enjoying her second S-80 Volvo from Volvo of Charlotte. Her clients frequently ask her, "How do you like your Volvo?" Her response is always, "I love it... everything about it!" When asked to elaborate, her excitement is contagious. "I have a lot of requirements from the automobile I drive. I need something dependable, safe and comfortable that I feel good showing off to my clients. I want it to be luxurious and handsome, but kind to my wallet. In addition, I need a service staff that answers my every concern and treats me with respect. To me - that's all Volvo and Volvo of Charlotte. Simply said, I want peace of mind and that is why Volvo is my car of choice, and Volvo of Charlotte is my dealership of choice."
