Recommendation letter for Mr. Michael Lovan

It is with great pleasure that I recommend Michael Lovan whom I have known for the past two years.

Mr. Lovan has always displayed a high degree of integrity, morals and responsibility, while working as a consultant for Pepsi Cola Bahamas. He has successfully single handedly managed to assist us with the reduction in our overall operation cost in some areas by more than 25%. His professional judgment and detail for perfection has in no doubt been beneficial to us as a company and I am sure to the wider business community in the Bahamas. He has offered training to our maintenance staff which has equipped them with the knowledge and the know how to work in any manufacturing/production facility within the Bahamas.

Mr. Lovan is most definitely an asset to our country and I am more than happy to give him my wholehearted endorsement.

Sincerely,

Richard L. Jones B.Eng.
