

Epiphany Banner

Our Epiphany banner is unique in that it is remade from the original banner, which had deteriorated significantly enough so that only the five faces could be reused. The five faces represent five races, and they are arranged in a crown shape. When Diana Mears refabricated the new banner, she chose a deep red background fabric with a gold swirl and then quilted it, alternating gold and silver stitching. It is lovely to look at from the back as well as the front!
