

Preteen Camp Medical Policy

Adopted 5/21/03

1. Please make sure that ALL medical information is up to date and complete.
2. All medication being taken by a camper must be listed. Please remember any allergies also (food and drug).
3. All medication must be in its properly labeled bottle.
4. All Rx medication must be in the properly labeled bottle that came from the pharmacy. It must have the camper's name, the name of the medication with time and dosing instructions on the label.
5. Please do not send medication for siblings in the same Rx bottle unless both names are on the pharmacy typed label.
6. If physician's samples are sent, they must be accompanied by the physician's written instructions, with the camper's name and dosing instructions.
7. Do not send any medication in daily pillboxes, unmarked bottles, envelopes, baggies, etc.
8. If medication is not sent in the properly label bottle, it will not be given.

State Law requires that ALL medication be kept at the Clinic/First Aid Station. This means all Rx and OTC medications for adults and children alike.

There is a supply of common OTC medications in the Clinic/First Aid Station, and it is available 24 hrs/day.

Churches that bring children on medication should make a list of those children and their medications to be given to the nurse at registration.
